

Sigal Klipstein, MD, FACOG

Sigal Klipstein, MD, FACOG, is a board-certified reproductive endocrinologist at InVia Fertility Specialists in Chicago. She earned her undergraduate degree from the University of Illinois, Champaign-Urbana (*summa cum laude*) and her medical degree from the

University of Chicago Pritzker School of Medicine, where she is currently an assistant professor. She completed an Ob/Gyn residency and a fellowship in Reproductive Endocrinology and Infertility at the Beth Israel Deaconess Medical Center of Harvard Medical School, before pursuing a research fellowship at the National Cancer Institute of the National Institutes of Health, conducting clinical investigation into tumor metastasis.

In addition, Dr. Klipstein holds a fellowship in medical ethics from Harvard. She is the current

Chair of the American Society for Reproductive Medicine Ethics Committee, and a former chair of the American College of Obstetrics and Gynecology Committee on Ethics. Her research interests include: ethical issues in preimplantation genetic testing; ethical incorporation of emerging reproductive technologies; and oocyte cryopreservation and fertility for patients of advanced maternal age.

A contributor to the medical literature in both clinical and ethical arenas, Dr. Klipstein also has been the primary contributor to several ACOG Committee Opinions. In 2023, she was honored by ASRM with the “Arnold P. Gold Foundation Humanism in Medicine Award for Practicing Physicians”, acknowledging her role as a champion of humanism in healthcare, based on the compassionate, collaborative, and scientifically excellent care that she delivers to her patients.
